Summary

Back-end Software Engineer with 3+ years of experience in scalable application development using NestJS, and AWS services.

Education

University of Information Technology - VNUHCM

2019 - 2023

Bachelor of Engineering in Software Engineering

- School Encourage Scholarship in 2020
- GPA: 8.55 / 10
- Relevant Coursework: System Design, Back-end development, Mobile development.

Experience

Vitalify Asia Co., Ltd.

Ho Chi Minh City

Specialized in web and mobile app development. Provides a rapid DevOps-based product development and improvement.

Position: NodeJS Software Engineer (Back-end)

early 2022 - mid 2022

Responsible for:

- **Developed** back-end for a Unity game on a debut live-streaming platform with API Gateway-powered Javascript WebSockets, scaling to 100 concurrent players; ensured robust performance and reliability.

Position: NodeJS Software Engineer (Back-end, DevOps)

mid 2022 - mid 2024

Responsible for:

- **Developed** a scalable cross-platform health app with a team of 5+, supporting 1M+ users; built 70+ APIs powering 20+ app-and-CMS features.
- **Designed and maintained** architecture with NestJS, MySQL, Redis, MongoDB, Docker, AWS, Terraform.
- **Led** disaster recovery efforts by identifying risks, designing mitigation strategies, and implementing safeguards.
- **Recognized** by executives as a top performer for delivering all tasks on time and within budget.

Position: Full-stack Software Engineer (VueJS Front-end, NodeJS Back-end, DevOps)

mid 2024 - now

Responsible for:

- **Built** a AI chatbot application using VueJS, NestJS, MySQL, Redis, and LangChain.js.
- **Integrated** OpenAI language models (GPT-4o, GPT-4o-mini, ...) for advanced responses.
- **Connected** Azure Search AI as a vector store for retrieval-augmented generation, enabling real-time question answering using indexed knowledge bases .
- **Delivered** a seamless, scalable user experience using AWS (Managed by Terraform).
- **Implemented** Datadog for monitoring and performance insights.

Core competencies and skills

Language:

- English (TOEIC LR: 925/990, TOEIC SW: 320/400).

Coding Skills:

- HTML, CSS, Javascript, Typescript, NodeJS, NestJS, Express, TypeORM, WebSocket, Jest, GraphQL.
- SQL Server, MySQL, MongoDB, SQLite.
- AWS services: RDS, DynamoDB, DocumentDB, S3, EC2, Lambda, Batch, EventBridge, CodeBuild, CodePipeline, API Gateway, ...
- Infrastructure-as-code software tool: Terraform.

Soft Skills:

- Experienced in team working, conflict resolution, code reviewing.
- Detail-oriented, critical thinking, problem solving, time management.
